

# Targeting Mental Maths

## Class Set ADOPTION OFFER

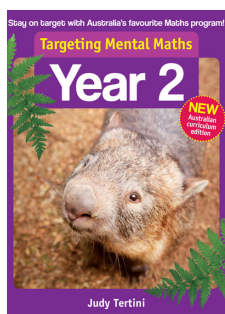

Are you ready to implement the new Maths curriculum?

In line with updated curriculums for 2024 school year, we are excited to announce the launch of our new Targeting Mental Maths years 1 to 6. The new editions are fully updated, and have all the features that educators love about Targeting Mental Maths.

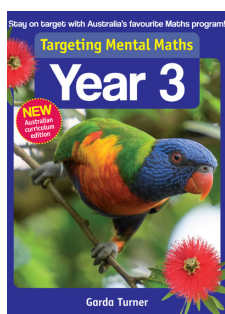

When children can solve problems in their heads, they feel more confident in their own abilities. The development of mental computation progresses through a range of strategies that can be improved by regular practice. The Targeting Mental Maths series targets the structured development of the children's mental maths strategies.
