

Targeting PHONICS

Class Set ADOPTION OFFER

The new **Targeting Phonics** series, has been developed to support student's practice of explicit phonics instruction from their classroom teaching.

The ability to decode and encode words efficiently underpins success with reading and writing and **Targeting Phonics** teaches these skills using a systematic synthetic phonics approach which follows the teaching progression recommended in the Australian and NSW Curriculums. A unique feature of this series is the sound card page that links (using a QR code) to mini videos of the cards with an audio component to assist with correct pronunciation.

Book 1 (Years K/Prep–1) - introduces the alphabet and short vowels, following a specific sequence, and supported with handwriting and spelling activities.

Book 2 (Years 1–2) - builds on the knowledge introduced in Book 1 and teaches students long vowels, consonant, vowel diagraphs and to blend sounds to make and write words. Comprehension of short texts is also included.

Book 3 (Years 2–3) - consolidates the knowledge in Books 1 and 2 and includes sentences and short paragraphs using decodable and known high-frequency words to practise reading and comprehension skills.

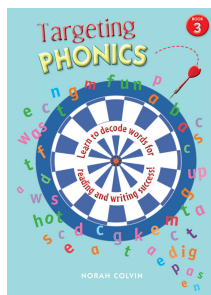

Lists of high frequency words are included in the back of each book with the answers.
